Baranagar, Kolkata - 700090,
West Bengal, India

EDUCATION

B.Tech - Computer Science & Engineering
Narula Institute of Technology
2019 - 2023 | CGPA: 7.8

Higher Secondary (Class XII)
Kendriya Vidyalaya, Cossipore
2019 | 65.2%

Secondary (Class X)
Kendriya Vidyalaya, Cossipore
2017 | CGPA: 9.4

TECHNICAL SKILLS

- ▶ Languages: C#, SQL, JavaScript, HTML5, CSS3
- ▶ Frameworks: .NET, .NET Core, ASP.NET Core MVC, ASP.NET Core Web API
- ▶ Databases: SQL Server, MySQL, PL/SQL
- ▶ Concepts: REST APIs, Query Optimisation, Multi-tenant Architecture, ERP & CRM Systems
- ▶ Tools: Visual Studio, SVN Git, Postman, SSMS, MySQL Workbench

CORE COMPETENCIES

- ▶ Stakeholder Communication
- ▶ Requirement Analysis
- ▶ Technical Leadership
- ▶ Team Collaboration & Problem Solving
- ▶ Multi-Client DB Management
- ▶ Performance Optimisation
- ▶ Accountability & Ownership

LANGUAGES KNOWN

English • Hindi • Bengali

ABIR BANERJEE

Full Stack .NET Developer | 2.7+ Years of Experience

PROFESSIONAL SUMMARY

Results-driven Full Stack .NET Developer with 2.7+ years of experience designing, developing and maintaining enterprise-grade web applications using .NET Core, ASP.NET Core Web API, C#, JavaScript, HTML/CSS, SQL Server, MySQL and PL/SQL. Proven track record of building scalable CRM and ERP solutions, managing multi-client / multi-database environments, and optimizing complex SQL queries to improve application performance. Adept at collaborating directly with stakeholders to translate business requirements into robust, production-ready software, and at providing technical leadership to resolve complex engineering challenges within Agile teams. Seeking to leverage strong full-stack development, database optimization and client-management skills in a dynamic role within a global consulting / technology environment.

PROFESSIONAL EXPERIENCE

Score Information Technologies Ltd.

Nov 2023 - Present

(Software Developer)

Project: BravoTrack - Multi-Client CRM Platform

Tech Stack: ASP.NET Core Web API • MySQL • HTML5, CSS3, JavaScript • C#

- Designed, developed and maintained a multi-tenant CRM application (BravoTrack) built on ASP.NET Core Web API with a MySQL backend and an HTML/JavaScript front end, used by multiple client organisations.
- Configured and managed multiple isolated client databases on a single platform, ensuring secure, accurate data segregation and seamless switching between client environments.
- Collaborated closely with business stakeholders to analyse requirements, design data models and APIs, and deliver customised CRM features and workflows tailored to each client.
- Provided technical leadership within the team by troubleshooting and resolving complex production issues, and performed query optimisation on MySQL to improve response times across multiple client databases.

Project: Crimson 3 - ERP / Accounting System (Jute Mills)

Tech Stack: ASP.NET Core MVC • SQL Server • HTML5, CSS3, JavaScript • C#

- Contributed to Crimson 3, an in-house ERP system with an integrated Accounts module built for the organisation's jute mill operations, using ASP.NET Core MVC and SQL Server.
- Built and maintained MVC controllers, views and business logic for core accounting and ERP workflows (ledgers, transactions and financial reporting modules).
- Wrote and optimised complex SQL Server queries, stored procedures and views to support accurate financial reporting and efficient data retrieval across the ERP system.

KEY ACHIEVEMENTS & STRENGTHS

- Successfully manage and support multiple live client databases and environments simultaneously without compromising data integrity or system performance.
- Strong query-optimisation skills across MySQL, SQL Server and PL/SQL, resulting in noticeably faster data retrieval and improved application responsiveness.
- Recognised by the team for technical leadership — regularly assist colleagues in debugging and resolving complex technical issues, while maintaining strong stakeholder communication.
